1.a. Write a C program for menu driven operations for addition, subtraction, multiplication and division for two given numbers?

b. Write a C program and draw flowchart to find given number is Armstrong or not?

c. Write a c program to find the greatest among three given numbers?

2.a. Write a C program for finding addition of two matrices?

b. Write a C program and draw flowchart to find given number is palindrome or not?

c. Write a c program to find the roots of quadratic equation using else if ladder?

3.a. Write a C program and draw flowchart to print Fibonacci series upto to given number?

b. Write a C program to find string length without library function?

c.Write a c program to do the multiplication of two matrices?

4.a. Write a C program to find maximum number in the given array?

b. Write a C program to concatenate two strings without using library function?

c. Write a c program and draw flowchart to implement linear search?

5.a. Write a c program and draw flowchart to find the given number is perfect number or not?

b. Write a C program to implement binary search?

c. Write a c program to find the avg marks for the n no of subjects for one student using arrays?

6.a. Write a C program and draw flowchart to find the given number is prime or not?

b. Write a C program to compare two strings using library function?

c. Write a c program to sort the array of elements using selection sort?

7.a. Write a C program and draw flowchart to do sum of 1D array values ?

b. Write a C program to find greatest among three numbers using nested if else ?

c. Write a c program to implement insertion sort?

8.a. Write a C program and draw flowchart to find the factorial of a number?

b.Write a C program to implement bubble sort?

c. Write a c program to find the row sum of each row of 2D array given

9.a.Write a C program and draw flowchart to print the diagonal elements of 2D array given?

b. Write a C program to print pyramid of "*" up to the given number?

c. Write a c program to do the string copy without using library function?

10.a. Write a c program to print upper triangular values of a given 2D matrix?

b. Write a c program to use at least 4 string library functions?

c. Write a c program and draw flowchart to print the reverse of a given number?
